BOARD AGENDA ITEM REPORT

Meeting	**October 19, 2026**
Agenda Item	5
Subject	Review of Vehicle Quotes and Purchase Authorization
Item Type	Board Action

RECOMMENDATION

Approve the purchase of five right-hand-drive Jeeps from Jim Manning Dodge, Inc., as quoted. Authorize the District Manager to purchase two Toyota RAV4 Hybrids from Toyota of Selma (Option A), or two Honda CR-V Hybrids through National Auto Fleet Group's Sourcewell contract (Option B) at a total cost not to exceed $81,283.

BACKGROUND

The District's right-hand drive Jeep fleet is overdue for replacement due to increasing age, mechanical failures, and ongoing reliability concerns. These vehicles experience frequent breakdowns, resulting in increased maintenance costs and operational disruptions. Most recently, one of the Jeeps experienced a transmission failure, further highlighting the deteriorating condition of the fleet. Additionally, these vehicles lack modern safety features, raising concerns about employee safety. Replacing the aging fleet is necessary to improve reliability, reduce maintenance expenses, minimize operational downtime, and provide staff with safer vehicles to perform their duties.

In addition to the quote for five right-hand-drive Jeeps, staff obtained seven quotes from five sources to replace two District SUVs, a Ford Explorer and a Ford Expedition. Neither replacement requires towing, four-wheel drive or full-size capacity, and Outreach, the primary user, is comfortable with a smaller, more fuel-efficient SUV. All quotes are for two-wheel-drive vehicles without towing packages, except the Explorer, which includes a hitch as standard.

Dealer quotes treat sales tax and fees inconsistently, so staff placed them on a common basis: the vendor's selling price, 8.975% sales tax and the $8.75 California tire fee, excluding registration. On that basis, two-unit totals range from about $74,650 (Toyota RAV4 Hybrid, at full MSRP) to $86,257 (Ford Explorer through Sourcewell).

DISCUSSION / ANALYSIS

Cost comparison on a common basis

Vehicle and vendor	Purchase method	Per unit	Two units	Difference from lowest
RAV4 LE Hybrid — Toyota of Selma	Retail (MSRP)	$37,325.06	$74,650.12	—
Explorer Active — Fahrney Ford	Factory fleet order with piggyback GPC credit	$39,332.38	$78,664.76	+$4,014.64
CR-V Hybrid Sport — NAFG	Sourcewell 081325-NAF	$40,641.39	$81,282.78	+$6,632.66
CR-V Hybrid — Selma Honda	Retail	$40,961.56	$81,923.12	+$7,273.00
Sorento Hybrid EX — Selma Kia	Retail, two in-stock units	$40,084.39 $41,848.69	$81,933.08	+$7,282.96
Explorer Active — NAFG	Sourcewell 081325-NAF	$43,128.70	$86,257.40	+$11,607.28

NAFG = National Auto Fleet Group. Prices include 8.975% sales tax and the $8.75 tire fee; registration is excluded. As a public agency, the District should qualify for exempt plates, so DMV fees on the dealer quotes may drop.

Key findings

- **The Toyota RAV4 Hybrid is the lowest-cost and most fuel-efficient option** at $74,650 for two and 43 mpg combined. Toyota's government fleet allotment is currently sold out, so the retail price is the best Toyota pricing available. Removing the $748 in dealer-installed accessories (floor liners, emblem overlays, cross bars) lowers the price to $36,509.93 per unit, or $73,020 for two.
- **Same Explorer, two prices.** The Ford Explorer from Fahrney Ford is $3,796 per unit ($7,593 for two) less than the identical Explorer through National Auto Fleet Group's Sourcewell contract. The Fahrney price depends on a $2,600 "piggyback GPC" credit that needs to be documented before award. While staff recommends moving to a hybrid, the non-hybrid direct replacement is provided for the Board's consideration.
- **The hybrids use roughly 35–45% less fuel than the Explorer.** The RAV4, CR-V and Sorento hybrids are rated 37–43 mpg combined; the gas Explorer is roughly 24 mpg.
- **Selma Honda:** The dealer taxed at 7.975% and added $591.02 in government fees. Recalculated at 8.975% without registration, the unit price is $40,961.56. The two-unit figure assumes a second vehicle at the same price.
- **Selma Kia:** Tax is calculated on the price before the $3,000 Kia Customer Cash, because California generally taxes manufacturer rebates; if the dealer taxes the net price, the pair is about $539 lower. Both totals depend on incentives that expire November 2, 2026. The KFA Bonus Cash and Military incentives listed on the quotes would not apply to a District cash purchase.

Fit for the vehicles being replaced

All four models meet the District's needs for both vehicles.

Model	Seats	Combined mpg	Gallons per 10,000 miles	Warranty or coverage noted in quote
Toyota RAV4 LE Hybrid	5	43	233	ToyotaCare maintenance, 2 yr / 25,000 mi
Honda CR-V Hybrid	5	40	250	Not stated
Kia Sorento Hybrid EX	6–7 (third row)	37	270	5 yr / 60,000 mi basic; 10 yr / 100,000 mi powertrain and hybrid
Ford Explorer Active (gas)	6 or 7	about 24	about 417	Not stated; Class III hitch and trailer wiring standard (GVWR 5,830 lb)

- **Explorer fuel economy:** The NAFG window sticker lists 43 city / 36 highway, which matches the CR-V sheet and appears to be a copying error. The figure above is approximate for the 2.3L rear-wheel-drive Explorer and should be confirmed on fueleconomy.gov.
- **Explorer seating:** The NAFG quote specifies second-row captain's chairs (6 seats); the Fahrney order lists a second-row split bench (7 seats).
- **Brand preference:** The District has historically purchased American-brand vehicles. If the Board weighs this, each vehicle's final assembly location is printed on its window sticker.

Items to confirm before award

- **Toyota of Selma:** Only one RAV4 (VIN …H768) was quoted. Confirm a second matching unit is available, and request an out-the-door price with and without the $748 in accessories, including any dealer discount.
- **National Auto Fleet Group:** Confirm the order cut-off date (listed as TBA), especially for the 2026 model-year CR-V. Orders cannot be canceled once the manufacturer schedules them.
- **Selma Honda:** Confirm the trim level and that a second matching unit is available, and ask the dealer to recalculate tax at 8.975% and apply exempt-plate registration.
- **Selma Kia:** Confirm both stock units are still available, how the dealer taxes the Customer Cash, and whether pricing holds if Board approval falls after November 2, 2026.

Options for Board action

Option	Two-unit cost	Combined mpg	Considerations
A. Two RAV4 Hybrids — Toyota of Selma	$74,650 ($73,020 without accessories)	43	Lowest cost; retail price; second unit to be confirmed
B. Two CR-V Hybrids — NAFG (Sourcewell)	$81,283	40	Cooperative contract; delivered; order cut-off TBA
C. Two Explorers — Fahrney Ford	$78,665	about 24	American brand; gas only; piggyback credit to be documented

Staff recommendation: Option A, with Option B as the alternate.

FISCAL IMPACT

Not to exceed $81,283 for two SUVs. The recommended option (Option A) is $74,650.12, or $73,020 without dealer accessories, plus $268,977.45 for five Jeeps at $53,795.49 each (total $343,627.57) [6110-02 Auto Equipment (Capital Outlay)].

ALTERNATIVES

This total includes your scheduled payments and any cash down, net cap cost reduction, or positive trade-in equity applied to this deal. The specific amounts are shown in your deal terms above. Your actual total may differ if these amounts change. Any add-on product or service listed on this document, including but not limited to vehicle protection plans, service contracts, theft deterrent products, surface protection products, and guaranteed asset protection (GAP) waivers, is not required to purchase or lease the vehicle. The consumer may purchase or lease the vehicle without any add-on product or service. This does not apply to equipment already installed on the vehicle and included in the advertised total price. Lower monthly payments often mean higher total costs for buying or leasing a vehicle. Longer terms reduce payments but increase interest or charges overall. September Summary Report

Inspections	Treatments	WNV Positive Samples

		YTD 86

West Nile virus (WNV) activity remained above average throughout the District during September. Reported human cases in Fresno County more than doubled, increasing from 9 at the end of August to 19 by the end of September. Although the number of mosquito samples testing positive for WNV has declined, mosquito abundance remains above the five-year average. Requests for service have also decreased, a trend expected to continue into the coming month as seasonal mosquito activity declines.

In collaboration with Central Life Sciences, District staff conducted field trials of Duovex, a new mosquito control product. While the results are still being analyzed, preliminary findings suggest that local Culex mosquito populations continue to exhibit high levels of resistance to deltamethrin.
